About Brainles

Brainles is a non-profit organization dedicated to promoting research and education in the field of brain imaging and analysis. We organize workshops, conferences, and other events to bring together researchers from around the world to share their latest findings and collaborate on new projects.

We also provide funding for research projects and educational programs in the field of brain imaging and analysis. We are committed to supporting the next generation of researchers and clinicians who will make breakthroughs in the diagnosis and treatment of brain disFree Downloads.

About Miccai

Miccai is the International Conference on Medical Image Computing and Computer-Assisted Intervention. It is the premier international forum for the presentation of the latest research in the field of medical image computing and computer-assisted intervention. Miccai brings together researchers from a wide range of disciplines, including computer science, engineering, mathematics, physics, and medicine.

Miccai is a major event in the field of medical image computing and computer-assisted intervention. It is a great opportunity for researchers to learn about the latest advances in the field and to network with other researchers from around the world.

We are proud to partner with Miccai to bring you the 4th International Workshop Brainles 2024 Held In Conjunction With Miccai Notes. This book is a valuable resource for anyone interested in the latest advances in brain imaging and analysis.
